PROFESSIONAL SUMMARY

Frontend Developer with 3 years and 7 months of professional experience building responsive web applications, enterprise platforms, content management systems, and internal business applications. Experienced in translating UI/UX designs into production-ready interfaces, integrating REST APIs, and creating reusable components that improve maintainability and user experience. Worked closely with designers, backend developers, QA engineers, and stakeholders to deliver reliable, responsive, and user-friendly applications across desktop, tablet, and mobile devices. Experienced in troubleshooting production issues, optimizing frontend performance, and maintaining consistent UI quality throughout the development lifecycle.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive Web Design, Bootstrap, Tailwind CSS
UI Development: Reusable UI Components, Figma to HTML, CSS Animations, Cross-Browser Compatibility, Accessibility
API & Data Integration: REST APIs, Dynamic Data Rendering, JSON, Form Validation, Error Handling, Loading States
Tools: Git, GitHub, Postman, Figma, WebStorm, Chrome DevTools, npm
Development Practices: Debugging, Code Reviews, Bug Fixing, Performance Optimization, Responsive Testing, Deployment Validation

PROFESSIONAL EXPERIENCE

Frontend Developer / Independent Contractor

The Dragon Year Limited (72 Dragons)

Nov 2022 – Jul 2026

- Built responsive websites, dashboards, and internal business applications using HTML5, CSS3, and JavaScript.
- Converted Figma designs into responsive, production-ready interfaces for desktop, tablet, and mobile.
- Integrated REST APIs and JSON data for dynamic content, form handling, and application features.
- Implemented form validation, loading and error states to improve usability and reliability.
- Collaborated with designers, backend developers, QA teams, and stakeholders throughout development.
- Resolved frontend, API integration, responsive design, and browser compatibility issues.

PROJECT EXPERIENCE

Digital Art & Gallery Web Platform:

- Developed responsive interfaces for artist profiles, artwork collections, articles, videos, and media content.
- Converted Figma designs into responsive web pages across multiple devices.
- Integrated REST APIs for dynamic content, pagination, and incremental loading.
- Built reusable UI components and shared JavaScript utilities for easier maintenance.

Leave Management System:

- Developed employee leave dashboards with approvals, balances, holidays, and employee records.
- Integrated REST APIs for leave management and data display.
- Implemented validation, user feedback, search, and filtering to improve usability.

Interview Scheduling System:

- Developed user flows supporting time-slot availability, interview scheduling, editing, rescheduling, and cancellation.
- Integrated REST APIs and JSON responses to display and update scheduling information.
- Collaborated with backend developers and QA teams to troubleshoot issues and validate application functionality.

EDUCATION

Bachelor of Engineering (B.E.) – Electronics and Instrumentation Engineering

Visvesvaraya Technological University

UBDT College, Davanagere

Graduated: 2022

CGPA: 6.38/10
